

Pumps and Compressors: Control, Operation, Maintenance and Troubleshooting (MQA Approved)

7 – 9 April 2025

This course is designed to provide participants with a solid foundation in the fundamentals of centrifugal pumps and compressors. Through interactive discussions and activities, you will explore essential topics such as construction, operation, maintenance, and troubleshooting techniques. Whether you are new to the field or seeking to enhance your existing knowledge, this workshop will equip you with the skills to confidently address common challenges and implement best practices.

This workshop will help you learn:	Who should attend?
<ul style="list-style-type: none"> • Understand their construction, operation, and key components. • Choose the right pump or compressor for specific applications based on operational requirements. • Acquire knowledge of routine maintenance tasks to ensure optimal performance and longevity. • Familiarise yourself with up-to-date best practices and safety protocols in pump and compressor management. 	<ul style="list-style-type: none"> • Plant operations and maintenance personnel • Design engineers • Mechanical engineers • Process technicians • Plant engineers and supervisors • Process control engineers and supervisors

Pre-requisites: A basic knowledge of mechanical engineering principles and some working knowledge of pumps and compressors would be useful. Please note that this course does commence with a brief overview of the fundamentals.

Cost: Rs 37,000 per participant

Duration: 3 days.

Mode of delivery: Face-to-face (however, we reserve the right to switch to online delivery if weather conditions are adversely affecting availability of the training centre).

Pumps and Compressors: Control, Operation, Maintenance and Troubleshooting

7th – 9th April 2025 from 08h00 to 17h00

[Contact hours: 24 hrs]

BOOKING FORM

Refund Policy

The training courses will be subject of the following refund policy:

- The participant will receive a refund of 90% of the total course fee if they withdraw from the nominated course at least fifteen working days before the first day of the course; 10% will be retained as administrative fee.
- The participant will receive a refund of 50% of the total course fee if they withdraw from the nominated course less than fifteen working days but more than ten working days of the first day of the course.
- The participant will receive no refund of the course fee if they withdraw from the nominated course less than ten working days of the first day of the course.
- The participant may choose to transfer their registration at any time before the first day of the course for an administrative fee of Rs 1,000 (this fee may be reviewed from time to time).
- All fees will be refunded by cheque.
- In the event of cancellation or rescheduling by more than one month of a course, the participant will receive total refund of the course fees. The participant may also choose to transfer their registration of equal value to any other course or to any other participant attending a course without incurring any additional cost subject to the availability of space. Alternative arrangements acceptable to the participant may also be made.
- We will not be held responsible for any financial loss incurred by the participant or its employer due to rescheduling or cancellation of any course.
